NARGES SALMANZADEH

Architectural Designer | Interior Design | 3D Visualization & AI-Assisted Design

📍 Mashhad, Iran 📞 +98 915 776 0098 📧 nrrgssa@gmail.com

PROFESSIONAL PROFILE

Architectural Designer with a strong academic foundation and hands-on experience in architectural design, interior architecture, BIM modeling, and 3D visualization. Skilled in transforming creative concepts into functional, aesthetically refined architectural solutions through advanced modeling, spatial planning, and visualization techniques.

Proficient in Revit, AutoCAD, SketchUp, and Enscape, with comprehensive knowledge of AI-powered architectural tools and workflows for concept generation, design exploration, rendering enhancement, and visual presentation. Experienced in developing architectural drawings, construction documentation, interior design concepts, and high-quality presentation materials.

Combines contemporary design thinking, technical precision, and creative problem-solving with a collaborative approach to architectural projects. Committed to integrating emerging AI technologies into architectural workflows to enhance design efficiency, visualization quality, and innovative design outcomes.

CORE COMPETENCIES

Architectural & Design Skills

- Architectural Design & Concept Development
- Interior Architecture & Interior Design
- Space Planning & Spatial Optimization
- Architectural 3D Modeling & Visualization
- Architectural Drafting & Construction Documentation
- Sustainable Design Principles
- Architectural Presentation & Visual Storytelling

Technical Skills

- Autodesk Revit — BIM Modeling & Architectural Documentation
- AutoCAD — 2D Drafting & Technical Drawings
- SketchUp — 3D Modeling & Conceptual Design
- Lumion — Architectural Rendering & Visualization
- Enscape — Real-Time Rendering & Visualization
- Microsoft Office Suite

AI & Computational Design Skills

- AI-Assisted Architectural Design & Concept Generation
- AI-Powered Architectural Visualization
- AI-Based Rendering Enhancement & Image Refinement
- Generative AI for Architectural Ideation
- AI-Assisted Design Exploration & Iteration
- AI-Driven Visual Presentation & Post-Production
- Integration of AI Tools into Architectural Design Workflows

Professional Skills

- Client Communication & Design Presentations
- Cross-Functional Team Collaboration
- Architectural Project Coordination
- Creative Problem-Solving & Design Thinking
- Attention to Detail & Design Accuracy
- Technical Communication & Presentation Development

PROFESSIONAL EXPERIENCE

Architecture Intern

Niarsh Toos Yeganeh Company

- Collaborated with architectural and interior design teams to support the development of design concepts, technical drawings, and project deliverables.
- Assisted in producing architectural plans, detailed 2D drawings, and construction documentation using AutoCAD, ensuring consistency with project design requirements.
- Developed detailed 3D architectural models using Autodesk Revit and SketchUp to support design development, spatial visualization, and architectural presentations.
- Contributed to early-stage architectural concept development, design exploration, and refinement of proposed architectural solutions.
- Supported the preparation of high-quality architectural renderings, presentation materials, and visual documentation to effectively communicate design concepts to clients and project teams.

EDUCATION

Master's Student in Architecture

- **Islamic Azad University – Science and Research Branch, Tehran**
  Currently Studying

Bachelor's Degree in Architecture

- **Islamic Azad University of Mashhad**
  Graduated – 2024

SELECTED PROJECT EXPERIENCE

Architectural Complex Design

- Developed comprehensive architectural plans, façade design concepts, and visualization materials for a contemporary architectural complex, emphasizing spatial functionality, architectural coherence, and modern design principles.
- Produced architectural presentation materials to effectively communicate design intent, spatial organization, and the overall architectural concept.

Interior Visualization Project

- Created high-quality interior renderings and detailed spatial visualizations, emphasizing realistic lighting, material composition, spatial atmosphere, and contemporary architectural aesthetics.
- Developed visually compelling architectural presentations to communicate interior design concepts, spatial quality, and the relationship between materials, lighting, and architectural form.

Exterior Perspective Development

- Produced detailed exterior architectural perspectives and presentation visuals highlighting façade composition, architectural character, environmental atmosphere, and contemporary design aesthetics.
- Emphasized visual storytelling, architectural composition, and integration with the surrounding urban context to communicate design concepts effectively.

PROFESSIONAL INTERESTS

- Contemporary Architecture & Innovative Design
- Interior Architecture & Spatial Experience
- Architectural Visualization & Photorealistic 3D Rendering
- BIM, Digital Architecture & Emerging Design Technologies
- AI-Assisted Architectural Design & Generative AI Workflows
- Conceptual Design & Architectural Form Exploration
- International Architectural Collaboration & Design Innovation
